WILL HAVE WIDESPREAD EFFECT.

Failure of the Reserve Commission Company, a Chicago Concern.

Chicago, Sept. 14.—The Reserve Commission company, which has been doing a large commission business, closed its doors yesterday. The failure will cause the immediate death of a number of smaller concerns throughout the central part of the United States, for while the Chicago business was limited it had dealings with scores of petty brokers in St. Louis, Milwaukee, Indianapolis, Cincinnati, Des Moines, Galena, Iowa City, Oskaloosa, Avoca and Grinnell, and such towns as far east as Pittsburg. It is estimated that the losses in Milwaukee alone will aggregate \$50,000.

The company recently succeeded to the business of C. C. Viall & Co. The commission company is credited with having done the most extensive business of its kind on the private wire order in the west. It had correspondents on something like 10,000 miles of wire, and had from fifteen to eighteen telegraph operators.

The Reserve company was organized with \$100,000 capital. At the offices of the company in the Rialto building the officers of the corporation were given as follows: President, A. H. Holmes; secretary, W. L. Johnson; treasurer, R. S. Evans.

ARRESTED FOR ARSON.
Michigan Man Charged with Setting Fire to His Store.

Menominee, Mich., Sept. 14.—Nels Larson was arrested Sunday morning by a detective on a farm nineteen miles from this city, and is now in jail awaiting trial on a charge of having set fire to his brick store building, which was partially destroyed in the early hours of Friday morning.

Up to a week or ten days ago Larson and his family occupied rooms in the rear upper part of the store. The fire originated in the basement, where a pile of excelsior saturated with kerosene was found, partly consumed. From this pile of inflammable material was a fuse made from a twisted lamp wicking, also saturated with kerosene oil extending to the Larson apartments, between the inner and outer walls. A pall of oil was also found, into which one end of the fuse was placed in the upper room. The damage to the building was less than \$500. Larson carried an insurance of \$2,900 on the buildings and \$450 on household goods. It is said that he was seen riding toward the city on the county road leading to the place of arrest the night of the fire.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Chief Cause.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weaken or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At drugstore fifty cents and one dollar. You may have a sample bottle and pamphlet, both free by mail. Mention THIS TIMES and send your address to Dr. Kilmor & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

This final comparison of the results of protection and free-trade will be of interest to those American farmers who are cattle raisers. During each year of the democratic tariff there were nearly 237,000 head of foreign cattle shipped here from Mexico and Canada, and the money sent out of this country to pay for the foreign cattle averaged \$1,575,670 a year. Hereafter, as before under protection, this money will be kept at home for circulation among American farmers.
